

We are the network

Your NGN news update
February 2019

we are
the network

Have your say

Tell us how you think we're doing, and what you want to see from us, in the time it takes to boil a brew. As a thank you for taking part and completing our survey, we'll enter you into our prize draw to win up to £500 of Amazon vouchers.

We want to hear the views of as many people as possible across our region so please do share the survey with your professional network, colleagues, friends and family, and encourage them to take part too.

Working together

Last month we kickstarted our workshops and have now held discussions on Environment, Communities and Innovation. The workshops have been a great opportunity to hear your views on our priorities as our plans for the future continue to take shape.

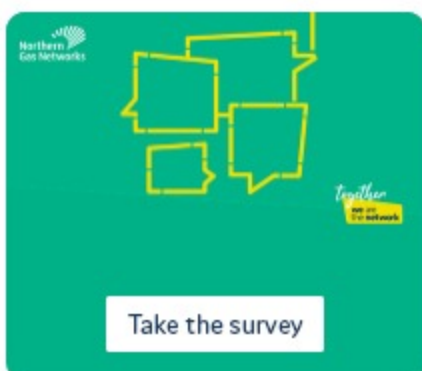

Join in!

A safe and reliable service

We're committed to delivering a safe and reliable service with minimal interruptions to gas supplies. Come along to our **Safety and Reliability workshop** on the 6th March at the National Railway Museum, York to have your say.

The future role of your gas network

What role do you think your gas network should play in a green energy future and how should we prepare for the UK's energy transition? Share your thoughts with us at our **Future of Energy workshop** on the 14th March at the Life Centre, Newcastle.

Making our communities stronger

Now in its third year, our community fund provides grants of up to £10,000 for grass roots organisations which share our social objectives. This year, we're delighted to have partnered with Northern Powergrid to double the available funding and extend support throughout both our network areas.

We have now awarded £50,000 to seven local organisations and community groups, who will deliver schemes throughout 2019 to tackle issues close to our hearts – such as affordable warmth, raising awareness of Carbon Monoxide or increasing the number of young people studying STEM subjects.
