

Hydrogen Home- Open Day!

When?

Thursday 20th January 2022

So how do you book on to attend?

Email Alexandra Brightman, our Hydrogen Home Liaison Officer at hydrogenhome@northerngas.co.uk to let her know you're interested in attending! Alexandra will get back to you with some available times and will get you booked in

What's it all about?

We are hosting an open day at the brand new Hydrogen Homes, the first of their kind to be opened to the public.

Hydrogen could be the fuel of the future, and a visit to Hydrogen Homes will give you the chance to have a glimpse into what your home might look like with 100% hydrogen appliances. You will have the opportunity to ask questions about the appliances and find out what makes them different to their natural gas alternatives.

You will be one of the first members of the public to step foot in the Hydrogen Homes and find out what we have been up to!

Spaces are filling up quickly, so if you would like to visit get in touch!
